Bringing innovative liquid roofing systems into the building merchant market

RES-TEC

1010 GRP ROOF

High performance waterproofing system

manufactured to

ISO 9001
quality standards

ISO 14001
environmental standards

Key Benefits

- Installations supported by Res-Tec's trusted 20 year materials guarantee
- Simple and quick installation with a waterproof finish that is proven to last
- Fire tested to BS 476-3:2004 with an B_{ROOF}(t4) and F.AB result meaning unrestricted use under Building Regulations
- Attractive finish to complement any home
- Anti-slip finish available for balconies and walkways
- Cold applied for maximum safety - no risks from open flames and other hot works
- Suitable for application in temperatures as low as 5°C or as high as 30°C
- Totally seamless membrane - no joints, no welds, no weak points
- Manufactured to ISO 9001 and ISO 14001 standards for consistent quality

The GRP Roof 1010 System by Res-Tec brings innovative liquid roofing technology into the merchant market. Specially formulated to provide lasting waterproof protection for roofs and balconies, the GRP Roof 1010 System offers unrivalled performance at exceptional value.

- 5 Reinforced GRP Roof 1010 Base Coat
- 6 GRP Roof 1010 Base Coat
- 7 Drip trim
- 8 OSB3 TG4 deck
- 9 Wall fillet trim

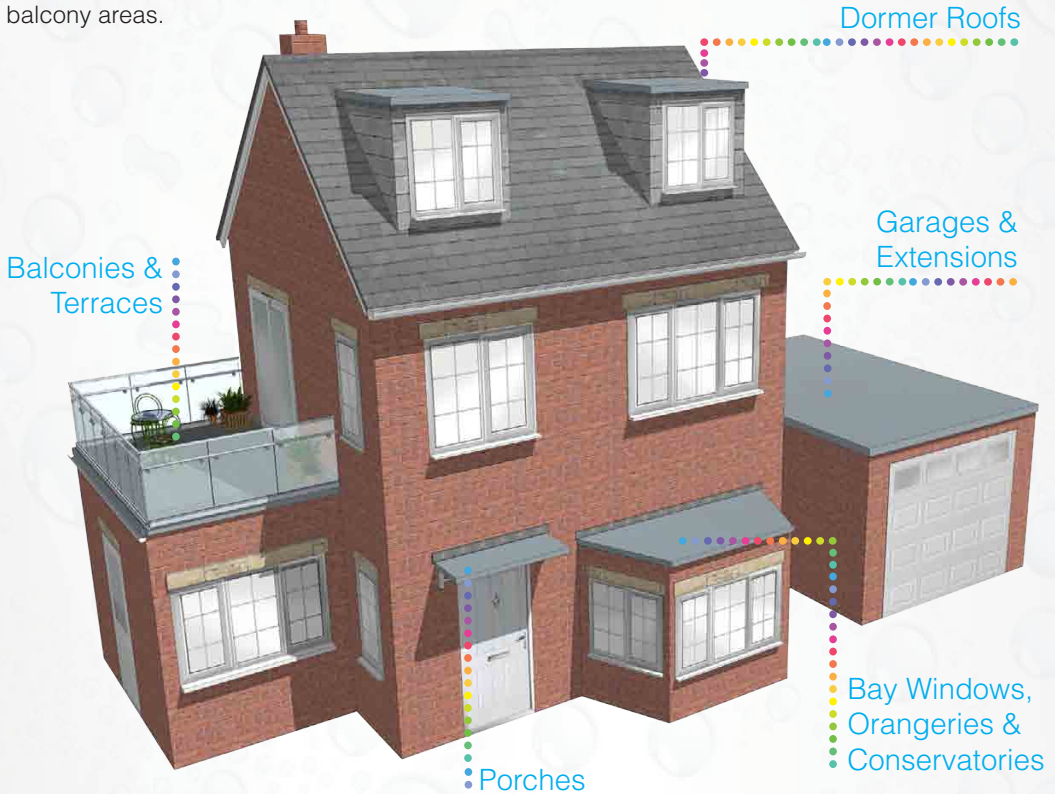

Properties

Unlike alternative systems, GRP Roof 1010 has been developed by the leading polyester chemists at Res-Tec specifically for the purpose of flat roofing. Every batch is made to a rigorous specification for consistent high quality - everytime.

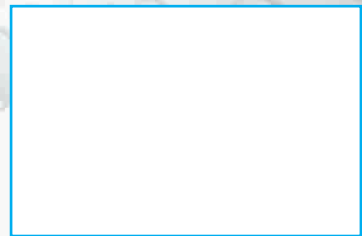

- **Toughened Top Coat** - Excellent durability, weathering, water resistance and aesthetics
- **Special accelerator system** - Complete curing across temperature and catalyst range
- **Modified for low styrene emission** - Lower odour in use
- **Low viscosity** - Fast and easy mixing, wetting of fibres and conformability to detail
- **Ideal for vertical applications** - Good sagging resistance with low ripple
- **Fast cure resins** - Mix and go - no waiting.
- **Low tack** - "Walk-on" at an early stage - does not attract debris
- **Pre-pigmented Top Coat** - For ease of use and optimum colour consistency

Seamless Waterproofing for Any Flat Roof

Large or small, simple or complex - GRP Roof 1010 is ideal for waterproofing all types of flat roof and balcony areas.
